Ensuring that each employee works in accordance with Standard Operating Procedures, including cleanliness, service, and transaction management to prevent discrepancies, and creating daily and monthly reports

IT SUPPORT/EDP/WEB DEVELOPER, PT.INTI CAKRAWALA CITRA (INDOGROSIR), Sukabumi
NOVEMBER 2021 — PRESENT

In terms of my position, I hold the title of EDP (Electronic Data Processing). However, in terms of my job responsibilities, I work as an IT SUPPORT, ADMIN, and WEB DEVELOPER.

I started as an IT SUPPORT, where I handle approximately 120 computers (including 30 warehouse server computers, CCTV computers, and around 90 user computers), 15 LQ 2190 printers, 35 thermal printers, and 5 Epson 3200 printers. Additionally, I monitor around 200 CCTV cameras, including those in the supermarket, warehouse, outdoors, and various user rooms. I am also responsible for the local network within the building, ensuring there are no network issues, and performing regular program installations and updates.

In my role as an ADMIN, I create detailed daily, weekly, and monthly reports related to inventory requests, product sales, and returns. I also create dashboards using Microsoft Excel for presentations to the manager. Furthermore, I manage data in the Oracle SQL Developer database.

As a WEB DEVELOPER, my job involves creating local websites using PHP, MySQL, and JavaScript for the database, which is managed using Oracle SQL Developer and PHPMyAdmin. The websites I develop are designed to assist users in generating reports, monitoring items, including returns and disposals, tracking stock, daily and monthly sales, and margins. They also cater to the needs of the back-office team in monitoring data or documents with issues.

Hobbies

coding and playing games

Education

DIPLOMA 3, AMIK CITRA BUANA INDONESIA, Sukabumi

JUNE 2017 — AUGUST 2020

I graduated with a Diploma 3 degree from AMIK Citra Buana Indonesia with a GPA of 3.11. During my college years, I was actively involved in the student organization, PROGRAMMER CLUB, where I served as a teaching staff for new students who wanted to learn together. I also held the position of internal public relations staff.
